Available in Computerized Model also

Capacities Available Capacities	Least Count
5kg	0.001Kg
10kg	0.01Kg
20kg	0.01Kg
50kg	0.01Kg
100kg	0.1Kg

Specifications:

- Analogue display
- 20kg range
- 220V single phase 50hz
- $\pm 2\%$ accuracy
- Manual and easy movement
- Max 200mm grip separation
- 0.01kg least count
- Lead screw mechanism
- Mild steel powder coated material

Features:

- Dial Gauge to display results in Kg.
- IMADA Japan imported precise Push Pull Gauge
- Highly accurate test results under push pull force
- Strong gripping clamps.
- Self-calibration facility 5 Kg
- Sample Adjusting Base Plate
