

Secure Seal Tester

The secure seal tester is an accurate equipment to test the quality of the seal. This instrument is being used by many PET bottles manufacturers in the packaging industry. Moreover they have an application in the chemical industry to test the packaging worthiness. The seal tester is an ideal instrument in the PET preform and packaging industry. It is user friendly and provides accurate test results/data.

The heat seal tester also helps in testing the intactness of bottle cap threading and the seal of bottles so that the manufactures provide their client with best quality products. Our instrument conforms to ASTM and ISO industry standards.

Testronix is the leading secure seal tester manufacturer and has catered its instruments to the top industry brands all over the world.

MODEL NO. TX-SS

Safety Cover

Brass Specimen
Holder

Pressure Hold
Facility

TESTRONIX[®]
INSTRUMENTS

FEATURES

- Easy push button operation
- Convenient sample testing
- Pressure, Inlet Pressure setting and Preset Timer
- Finish powder coated
- Robust structure
- Accurate test results
- Digital timer for precise readings

SPECIFICATION

- Equipment Range 220 psi
- Test Range 175 psi
- Accuracy $\pm 2\%$ at full range
- Least Count/Resolution 0.1 psi
- Inner Diameter of testing container 200 mm \pm 10 mm
- Timer can be set upto 999 seconds
- Finish powder coated
- Dimensions 370x430x650mm
