

## Hot & Cold Chamber

The Testronix hot and cold chamber is a versatile and widely used testing instrument that is designed to meet various testing requirements across different industries. It offers a temperature range of -20 to 150 degrees Celsius, making it suitable for testing materials under extreme conditions.

The chamber has dimensions of 18 inches by 18 inches by 18 inches, providing ample space for accommodating test samples. Safety features are incorporated to prevent the temperature from exceeding 180 degrees Celsius, ensuring the integrity of the testing process.

The chamber is equipped with a timer that can be set up to 999 hours for automatic cutoff. Additionally, it features a double-glass door with a light source inside, allowing easy viewing of the test samples. The chamber also includes a cutout for connecting chargers to phones placed inside.

The LCD display provides clear visibility of the parameters, and data logging capability is available. Despite its robust capabilities, the chamber maintains a compact size and is equipped with castor wheels for easy mobility within the laboratory environment.

Testronix is a leading hot and cold chamber manufacturer and offers this testing instrument at the best possible price.

**MODEL NO. TX - HCC 100**

## FEATURES

- Temperature required: -20 to 150 Celsius
- Size: 18 inch x 18 inch x 18 inches
- Timer: A timer would be provided for up to 999 hours for auto cut off
- Safety features would be incorporated to ensure that the temperature does not rise beyond 180 Deg C.
- The chamber would be provided with double glass on the door for easy viewing with a light source inside.
- A cutout would be provided to connect the chargers with the phones placed inside.
- LCD display of parameters with data logging available.
- Compact size with castor wheels to move the chamber in the laboratory

## SPECIFICATION

- Capacity: 100 litres
- Display: LED (Digital)
- Accuracy: Temp.  $\pm 3^{\circ}\text{C}$  / Humidity  $\pm 5\%$
- Least Count/Resolution Temp:  $0.1^{\circ}\text{C}$  /  $1\%$
- Power: 15A, 220V, Single phase, 50 Hz
- Temperature Range:  $-20^{\circ}\text{C}$  to  $150^{\circ}\text{C}$  (customizable)
- Humidity Range: 20% to 95%RH (customizable)
- Timer: 999 Hrs.
