Moisture Meter

The Moisture Meter has a crucial role in the packaging industry to check the moisture content of corrugated boxes and cartons. The moisture meter provides an accurate display of the moisture content in percentage. This test reading is displayed on the digital LCD display. The instrument consists of an accurate measuring probe which is helps in calculating consistent and precise results. It helps in monitoring and measuring the moisture accurately.

Testronix Moisture Meter has high sensitivity manufactured especially for the packaging industry. It is used for checking the moisture content of paper, corrugated sheets and cardboards.

MODEL NO. TX-MM 200

🏢 **I-10A, DLF Industrial Area, Phase-1, Faridabad 121003, Haryana, India**

FEATURES

- Auto Power off
- Bright Digital Display
- In built Data Saving Feature
- Portable Insturment
- Automatic Calculation
- Portable Device
- Easy to operate
- Simple to Calibrate

SPECIFICATION

- Moisture Range for Paper: 1.7%
- 3 types of Sample selection
- Displays Pass Fail Report
- Average of upto 100 readings displayed
- Data storage: max 300 readings (100 per paper type)
- Battery Type: Compact 9V Alkaline
